23. Interpreting the land use permissibility table

- (1) The permissibility of uses of land in the various Precincts in the Scheme area is determined by the land use permissibility table.
- (2) Where a specific use class is not listed and defined in the land use permissibility table, that land use is generally not permitted by this Scheme. Notwithstanding this, where a proposed use class is not listed and defined in the land use permissibility table, the land use may be considered as set out in subclause (5).
- (3) The symbols used in the land use permissibility table have the following meanings —
 - P means that the use is permitted if it complies with any relevant development standards and requirements of this Scheme;
 - I means that the use is permitted if it is consequent on, or naturally attaching, appertaining or relating to the predominant use of the land and it complies with any relevant development standards and requirements of this Scheme;
 - D means that the use is not permitted unless the Commission has exercised its discretion by granting development approval;
 - A means that the use is not permitted unless the Commission has exercised its discretion by granting development approval after giving notice in accordance with clause 70;
 - X means that the use is not permitted by this Scheme.

Note:

1. The development approval of the Commission may be required to carry out works on land in addition to any approval granted for the use of land. In normal circumstances one application is made for both the carrying out of works on, and the use of, land. For development on land that does not require development approval see clause 67.
2. In considering an application for development approval, the Commission will have regard to clause 73.
- (4) A specific use class referred to and defined in the land use permissibility table is excluded from any other use class described in more general terms.
- (5) The Commission may, in respect of a use that is not specifically listed and defined in the land use permissibility table, and that cannot reasonably be determined as falling within a use class referred to and defined in the land use permissibility table —
 - (a) determine that the use is consistent with the objectives of a particular Precinct and is therefore a use that may be permitted in the Precinct subject to conditions imposed by the Commission; or
 - (b) determine that the use may be consistent with the objectives of a particular Precinct and give notice under clause 70 before considering an application for development approval for the use of the land; or

- (c) determine that the use is not consistent with the objectives of a particular Precinct and is therefore not permitted in the Precinct.
- (6) If a use of land is identified in a Precinct as being a class P or class I use, the Commission may not refuse an application for development approval for that use in that Precinct but may require works that are to be undertaken in connection with that use to have development approval.
- (7) If a use of land is identified in a Precinct as being a class X not permitted use, the Commission must refuse an application for development approval for that use in that Precinct unless —
 - (a) the development approval application relates to land that is being used for a non-conforming use; and
 - (b) the Commission considers that the proposed use of the land would be less detrimental than the non-conforming use.

24. Lawful development pre-dating this Scheme

A development that was lawfully being carried out on land immediately before this Scheme applied to the Scheme area is governed by section 122C of the Act.

25. Non-conforming uses

- (1) Unless specifically provided, this Scheme does not prevent —
 - (a) the continued use of any land, or any structure or building on land, for the purpose for which it was being lawfully used immediately before the commencement of this Scheme; or
 - (b) the carrying out of development on land if —
 - (i) before the commencement of this Scheme, the development was lawfully approved; and
 - (ii) the approval has not expired or been cancelled.
- (2) Subclause (1) does not apply if —
 - (a) the non-conforming use of the land is discontinued; and
 - (b) a period of 6 months, or a longer period approved by the Commission, has elapsed since the discontinuance of the non-conforming use.
- (3) Subclause (1) does not apply in respect of a non-conforming use of land if, under Part 11 of the Act, the Commission —
 - (a) purchases the land; or
 - (b) pays compensation to the owner of the land in relation to the non-conforming use.

26. Changes to non-conforming use

- (1) A person must not, without development approval —

- (a) alter or extend a non-conforming use of land; or
 - (b) erect, alter or extend a building used for, or in conjunction with, a non-conforming use; or
 - (c) repair, rebuild, alter or extend a building used for a non-conforming use that is destroyed to the extent of 75% or more of its value; or
 - (d) change the use of land from a non-conforming use to another use that is not permitted by the Scheme.
- (2) An application for development approval for the purposes of this clause must be advertised in accordance with clause 70.
- (3) The Commission may only grant development approval for a change of use of land referred to in subclause (1)(d) if, in the opinion of the Commission, the proposed use —
- (a) is less detrimental to the amenity of the locality than the existing non-conforming use; and
 - (b) is closer to the intended objectives of the Precinct in which the land is situated.

27. Register of non-conforming uses

- (1) The Commission may prepare a register of land within the Scheme area that is being used for a non-conforming use.
- (2) A register prepared by the Commission must set out the following —
- (a) a description of each area of land that is being used for a non-conforming use;
 - (b) a description of any building on the land;
 - (c) a description of the non-conforming use; and
 - (d) the date on which any discontinuance of the non-conforming use is noted.
- (3) If the Commission prepares a register under subclause (1) the Commission —
- (a) must ensure that the register is kept up-to-date; and
 - (b) must make a copy of the register available for public inspection during business hours at the offices of the Commission; and
 - (c) may publish a copy of the register on the website of the Commission.
- (4) An entry in the register in relation to land that is being used for a non-conforming use is evidence of the matters set out in the entry, unless the contrary is proved.

Division 3 — Residential Precinct

28. Statement of Intent

The intent of the Residential Precinct is to provide for a variety of permanent residential housing types, some tourist accommodation and related amenities, and local public open spaces.

29. Objectives of the Precinct

The objectives of the Residential Precinct are to —

- (a) Create public open spaces that provide high-quality landscape and leisure amenity for residents and visitors, and provide visual and physical connections to the waterfront.
- (b) Encourage a range of housing typologies, including high-density multiple dwellings, medium density single, multiple and grouped dwellings.
- (c) Ensure that the height and mass of buildings respects the outlook considerations from existing residential areas in the immediate vicinity.
- (d) Provide a high-quality interface between private development sites and public realm by ensuring that built form, private landscaped areas and edges along streets and open spaces respect and enhance the experience of streetscapes, connections and parks.
- (e) Allow for limited short-term accommodation in the form of serviced apartments or short-term holiday accommodation.
- (f) Enable a limited amount of hospitality and retail uses adjacent to the waterfront that is compatible with the surrounding residential area, to provide some activation and to service the needs of the population in this Precinct.
- (g) Encourage innovation and excellence in planning and design.

30. Precinct specific requirements

- (1) Notwithstanding the permissibility of uses set out in the land use permissibility table, the floorspace of non-residential land uses within the Residential Precinct shall not exceed 200 m².

The intent is for the Precinct to provide activity drawcards and operate as a vibrant, safe and welcoming place to live, visit and work.

34. Objectives of the Precinct

The objectives of the Mixed Use / Waterfront / Recreation Precinct are to —

- (b) Provide different public open spaces that accommodate a variety of water-based, passive, active and socialising activities and events.
- (c) Facilitate the growth of retail, commercial and hospitality uses over time whilst encouraging predominantly active, non-residential uses at ground-floor level.
- (d) Provide a continuous, immersive and interactive public experience along the water-edge via a wide pedestrian pathway and the provision of festival retail and food and beverage offerings in key locations.
- (e) Provide permanent and short-term accommodation in positions that are compatible with non-residential activities, and that overlook public realm environments to take advantage of views and provide natural-surveillance.
- (f) Encourage innovation and excellence in planning and design.

35. Precinct specific requirements

- (1) Notwithstanding the permissibility of uses set out in the land use permissibility table, the total shop/retail floorspace shall not exceed 12,000 m² NLA, and no single tenancy shall exceed 20 percent of this limit, and multiple tenancies must not be amalgamated to exceed this limit.

45. Objectives of the Precinct

The objectives of the Waterways Precinct are to —

- (a) Provide for permanent mooring of vessels and potentially short-term berths for commercial vessels.
- (b) Provide an appropriate location for boat lifters adjacent to the Marine Enterprise Precinct.

- (d) Provide for public access to the breakwaters and public jetties, and controlled access to private jetties and pens.

Part 5 — General development requirements

46. Quality of design

- (1) All applications for development approval must satisfy the Design Principles for Good Design set out in State Planning Policy 7: Design of the Built Environment; and
- (2) All applications for sites identified in the relevant Design Guidelines as landmark or gateway sites must also satisfy the requirements for Design Excellence set out in the relevant Design Guidelines.

47. Car parking

- (1) Car parking spaces are to be provided in respect of any development, calculated in accordance with the requirements set out in the relevant Improvement Scheme policy.
- (2) Satisfaction of the requirement for the provision of car parking can be achieved –
 - (a) By the provision of the requisite number of bays on the development site;
 - (b) With the agreement of the Commission —
 - (i) by way of cash-in-lieu in an amount calculated on a per car parking bay basis; or
 - (ii) by the provision of car parking on another site or suitable location within the Improvement Scheme area.
- (3) In respect of the payment of cash-in-lieu in clause 47(2)(b)(i), the value of a car parking bay is to be specified, from time to time, by the relevant Improvement Scheme policy.
- (4) In respect of the provision of car parking bays on another site within the relevant Precinct in clause 47(2)(b)(ii), an agreement must be finalised prior to making application for a Building Permit under the *Building Regulations 2012*, which provides the location of the bays and the mechanism by which those bays will be secured during the life of the development.

48. Public Art

- (1) In approving an application for development approval, the Commission may impose a condition requiring the provision of public art, or a monetary contribution towards the provision of public art.

50. Variations to site and development requirements

- (1) The Commission may approve an application for a development approval that does not comply with site and development requirements.
- (2) An approval under subclause (1) may be unconditional or subject to any conditions the Commission considers appropriate.
- (3) If the Commission is of the opinion that the non-compliance with a site and development requirement will mean that the development is likely to adversely affect any owners or occupiers in the general locality or in an area adjoining the site of the development the Commission must —
 - (a) consult the affected owners or occupiers by following one or more of the provisions for advertising applications for development approval under clause 70; and
 - (b) have regard to any expressed views prior to making its determination to grant development approval under this clause.
- (4) The Commission may only approve an application for development approval under this clause if the Commission is satisfied that —
 - (a) approval of the proposed development would be appropriate having regard to the matters that the Commission is to have regard to in considering an application for development approval as set out in clause 73; and
 - (b) the non-compliance with the site and development requirement will not have a significant adverse effect on the occupiers or users of the development, the inhabitants of the locality or the likely future development of the locality.

51. Restrictive covenants

- (1) A restrictive covenant affecting land in the Scheme area that would have the effect of limiting the number of residential dwellings which may be constructed on the land is extinguished or varied to the extent that the number of residential dwellings that may be constructed is less than the number that could be constructed on the land under this Scheme.
- (2) If subclause (1) operates to extinguish or vary a restrictive covenant —
 - (a) development approval is required to construct a residential dwelling that would result in the number of residential dwellings on the land exceeding the number that would have been allowed under the restrictive covenant; and
 - (b) the Commission must not grant development approval for the construction of the residential dwelling unless it gives notice of the application for development approval in accordance with clause 70.

Part 6 — Local development plans

52. Term used: local development plan
